

# EVVA's virtual network SVN.

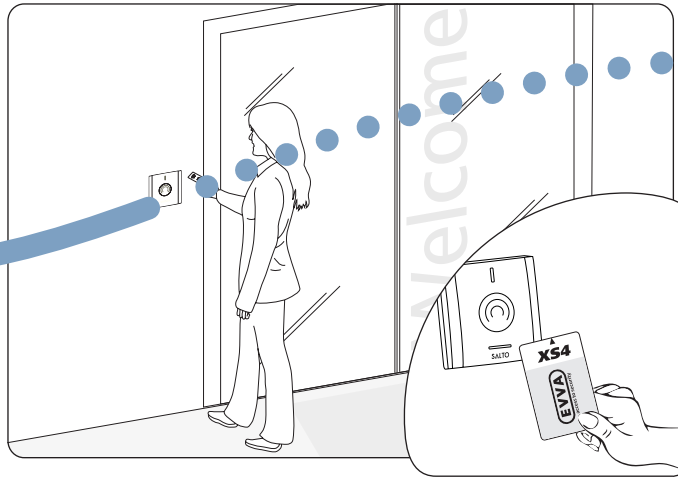

## Security and comfort - online as well as offline

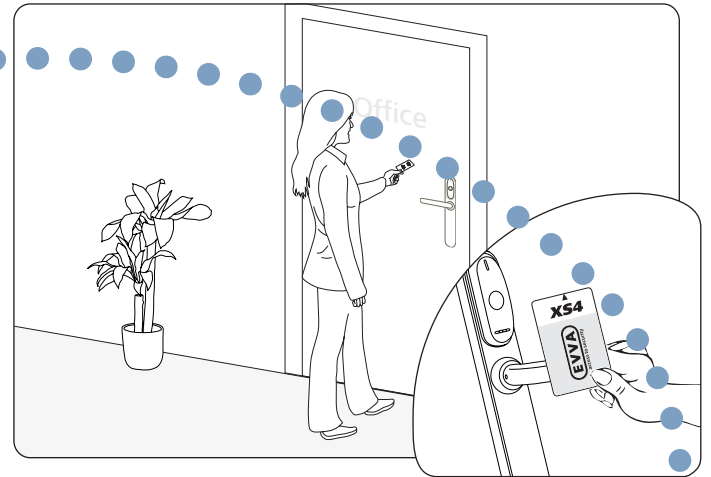

**Online computer**  
simple administration of the access control

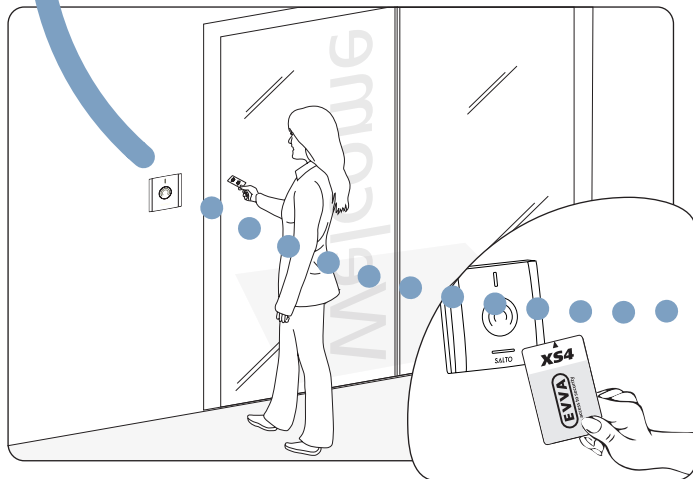

**Main entry** 7 o'clock. Access to the company

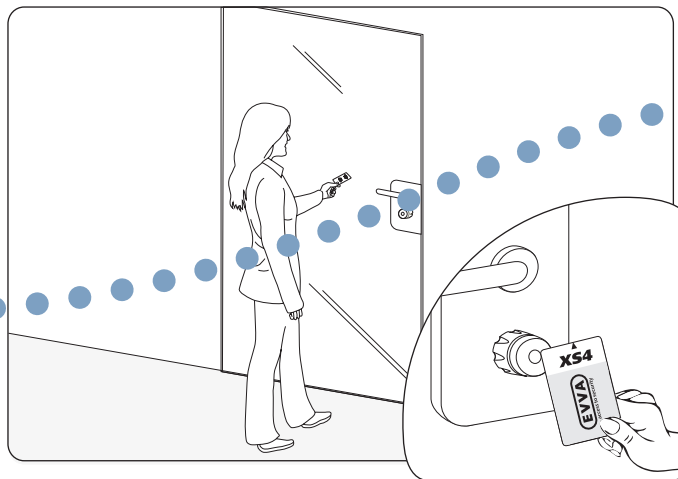

**Office door** 7:03 o'clock. Access to the office

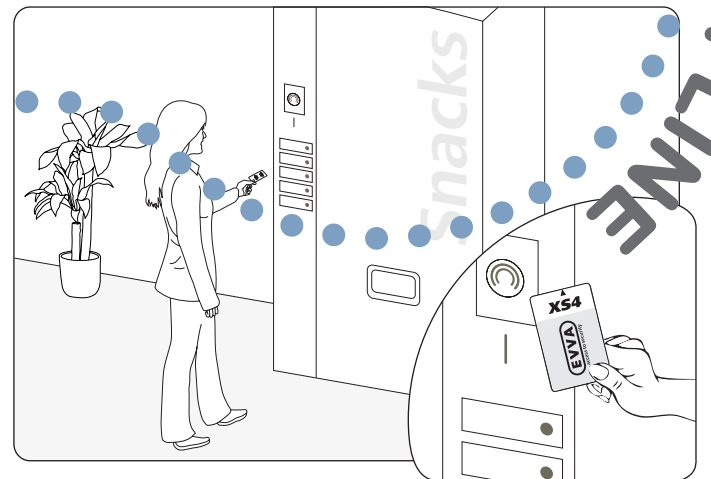

**Main entry** 17:00 o'clock Closing time

**Meeting room** 15:00 o'clock. Meeting

**Snack distributor** 10:11 o'clock. Charging the snack

The data transfer between offline doors and the software simply happens via the ID-carrier (f.e. cards), no need of wires. At the online doors the card will be read and updated.

**DATA TRANSFER ONLINE**   
**OFFLINE**
